Memorial Hospital’s Mission Statement:
Christ’s healing mission of compassion empowers us to be for others through quality and excellence.

Memorial Hospital’s Vision Statement:
We are committed to being the preferred health and wellness provider; transforming lives through faith-based, compassionate care.

Memorial Hospital’s Core Values:
Respect for Human Dignity
Compassionate Caring
Stewardship
Quality
Justice

“Calvary preaches perfection; no half-measures will do on Calvary.”
~ Venerable Mary Potter, Foundress, Sisters of the Little Company of Mary
Memorial Hospital and Health Care Center has announced the names of the top six physicians nominated for the fifth annual Little Company of Mary Outstanding Physician Award. This award is named in honor of the Sisters of Little Company of Mary, the sponsors of Memorial Hospital and Health Care Center.

This award is based on outstanding job performance reflecting Memorial Hospital’s Mission Statement and the Core Values of Respect for Human Dignity, Compassionate Caring, Stewardship, Quality and Justice. To be accepted as a nominee, a physician must be classified as a member of the hospital’s medical staff for a minimum of twelve months and be in good standing with the medical staff. The LCM Outstanding Physician Award will be presented by the Medical Staff President during the hospital’s Medical Staff Appreciation Banquet in April.

**Dr. Karim Anwar** received his medical degree at King Edward Medical College in Lahore, Pakistan. He completed his residency in internal medicine at University of Connecticut School of Medicine and completed a fellowship in hematology and medical oncology at University of Massachusetts School of Medicine. He is board certified in medical oncology, hematology and internal medicine, and was appointed to the active medical staff of Memorial Hospital in 2012. Dr. Anwar is an oncologist in the Lange-Fuhs Cancer Center.

**Dr. Jonathan Day** received his medical degree from University of Louisville in Kentucky and completed a residency in diagnostic radiology and a fellowship in abdominal imaging at Wake Forest University in Winston-Salem, North Carolina. He is a member of the American College of Radiology and the American Roentgen Ray Society. Dr. Day has been a member of the active medical staff since 2015 and is board certified in diagnostic radiology. He is a radiologist at Memorial Hospital.

**Dr. M. Jeannie Gruber** received her medical degree at Indiana University School of Medicine in Indianapolis and completed a residency in family medicine at Ball Memorial Hospital in Muncie, IN. She joined Memorial Hospital’s medical staff in 1999 and is board certified in family medicine. Dr. Gruber’s office is located at Santa Claus Family Medicine, 92 W. Christmas Blvd. in Santa Claus.

**Dr. Frank Hopkins** is board certified in internal medicine and geriatric medicine. Dr. Hopkins received his medical degree from Ross University in Dominica, West Indies and completed both his internship and internal medicine residency at St. Luke’s Hospital in St. Louis, Missouri, where he also served as chief resident in medicine. Dr. Hopkins joined the active medical staff in 1989. His office is located at Memorial Internal Medicine, 751 W. 9th Street in Jasper.

**Dr. Megan Isaacs** received her medical degree at Indiana University School of Medicine in Indianapolis and completed a residency in obstetrics and gynecology at St. Vincent Hospital and Health Services, also in Indianapolis. Dr. Isaacs is board certified and a fellow of The American Congress of Obstetricians and Gynecologists. She joined Memorial Hospital’s active medical staff in 2014. Her office is located at Jasper Obstetrics and Gynecology at 613 Dorbett Street in Jasper.

**Dr. Bernard Kemker, Jr.** is board certified in general surgery and attended Indiana University School of Medicine. He completed his residency in general, thoracic and vascular surgery at Akron General Medical Center in Akron, Ohio. Dr. Kemker joined the active medical staff in 1991. His office is located in the Medical Arts Building at Jasper Surgical Associates, 721 W. 13th Street in Jasper.
The F/G elevators near the new Lab construction area will be turned-off on Level 1 beginning Tuesday, March 28 for work connected with the Lab and Outpatient Center renovation project. This means patients and staff will not have access to these elevators on Level 1, but they will remain in operation between Levels 2 and 3. Level 1 access to these elevators will remain closed for about two weeks while new wall coverings and flooring are installed. Please note that this will affect travel for staff and patients going to the Cancer Center on Level 2 and the Outpatient Center/Procedure Center which are currently on Level 3. Temporary directional signage will be installed to direct staff/patients to these areas during this period. Please be on the lookout for anyone needing help with directions.
New Technology Available at Memorial Hospital for Hearing-Impaired Patients

by Ryan Young, Director of Emergency Department and House Supervision

Patients with hearing impairments will now be better able to communicate through a new sign language interpreting vendor, CyraCom. To ensure effective communication for all of our hearing-impaired patients, appropriate services/auxiliary aides are provided, including American Sign Language. CyraCom is able to provide the ASL interpretation services for patients of Memorial Hospital through iPad technology that was purchased with the help of Memorial Hospital Foundation. This new technology is provided only on the main campus of MHHCC due to network connectivity requirements. Outlying offices and services will continue to provide services to this population as they always have. For those times when CyraCom technology is not available, MHHCC has other means to provide this communication to hearing-impaired patients. Please refer to the Hearing Impaired Communication policy on Policy Stat for details.

Memorial Hospital has selected the CyraCom service because of its dependability and because it is comparable to what other providers in the area are using. Other organizations have experienced positive feedback on the use of this technology for its patients. In the event of an emergency, CyraCom can be utilized and an interpreter will be on the screen in seconds to assist in communicating during the situation. This new technology is located in the House Supervision Office. If you need to utilize this new technology, please contact the House Supervisor after hours or the ED Staff during the hours of 7:30 a.m. - 3:00 p.m. A big “Thank You” to Memorial Hospital Foundation for purchasing the equipment needed so this new technology can be utilized for our patients!

Volunteer of the Year Award

by Deb Boyles, Volunteer Coordinator

Have you heard? It’s time to submit your nomination for the Volunteer of the Year Award. Do you know a volunteer who is dependable, caring, helpful, and goes the “extra mile” always wearing a smile? Do you know a special volunteer who makes a difference and is always happy to be here? If you are a volunteer, is there another volunteer that you feel is deserving of this award? There are many! This is your chance to acknowledge how grateful you are to the many volunteers that give Memorial Hospital and Health Care Center an abundance of their time and talent. This may be a tough decision as to who you want to nominate.

The policy and nomination form can be found on the HUB. If you would like a paper form, please stop by my office. The winner will be announced at our annual Volunteer Appreciation Dinner on April 20, 2017. The deadline to submit the form is April 6.
As you are aware, Memorial Hospital and Health Care Center works hard to continually improve the quality of the care we provide to our patients, and strives to improve clinical outcomes, provide exceptional patient experiences, and utilize our resources efficiently. We measure our outcomes and report these to the Centers for Medicare and Medicaid Services (CMS) to see how we compare with other hospitals throughout our region and country.

Our results show that we are consistently performing better than many other hospitals in many aspects. All hospitals work to save lives and keep people healthy, but because of the high quality care we provide, compared to an “average hospital” of our size, in 2016 we saved an additional 60 lives and prevented 99 patients from being readmitted to the hospital! This is above and beyond the national average for hospitals of our size!

In addition, CMS oversees several programs that place penalties on hospitals that have too many readmissions or patients who acquire hospital-related conditions during their stay, and compared to all our area hospitals, Memorial Hospital is the only one who did not receive a penalty this year. We also were awarded 5 out of 5 stars by CMS based on our quality, making us one of the top 2% of all hospitals in the nation (only 83 of the nearly 4000 hospitals in the United States earned this honor!).

Our commitment to quality and excellence is part of our Mission, and we work hard every day to achieve this. Our staff, physicians, and volunteers work together to provide compassionate care with the highest priority on safety, quality, and compassion – and our results show this! Thank you to all who are part of Memorial Hospital, and to our patients and families who place their trust in us!

To Our Doctors...

Thank You

Day in and day out, our doctors touch the lives of many people. They serve as leaders, confidants, and friends. In recognition of Doctors’ Day on March 30, we take this opportunity to recognize our Medical Staff for their dedication to you, our patients, and the communities we serve. Please join us in saying “Thank You!” for choosing our communities and Memorial Hospital and Health Care Center in which to serve.
Nurses’ Day Celebration
Open House
Wednesday May 3, 2017
7:00 am – 4:00 pm
MARY POTTER MEETING ROOM

Breakfast will be available
Lunch will be served starting at 11 am
In early March, five kinds of lettuce from the HOPE Garden Indoor Towers were picked and brought to the Memorial Cafe’ for employees to see and actually taste. Mike (right) is shown serving some of that produce to Norma Mehne so she can see how tasty it actually is.

The photos below show the towers in full bloom and nearly ready to be picked. So far the towers have produced lettuce that has been sent to four counties: Daviess, Dubois, Martin, and Pike. Indoor growing will continue through spring and summer, and plans are under way to expand food delivery to more “food insecure” areas and more of Memorial Hospital’s Service Area Counties.

Have you picked any of your SMART Goals for FY 2017-2018? Why not make volunteering at HOPE Garden one of them? We need gardeners, flower planters, cooks, produce delivery staff, and more.

Call Mike at #8426 or Pam at #8428 to get “on the volunteer list”!
House-Wide Drive

A house-wide drive of the Mary Potter Employee Emergency Assistance Fund has been initiated on behalf of Nicole Hayden, Medical Practice Management. Donations may be made through Human Resources. A donation form can be found through PolicyStat by searching policy number 400.23 or click here. We are grateful for any donations received to assist members of our hospital family in their time of need. Donation forms must be presented to Human Resources by the donating employee no later than the second Wednesday of the pay period in order for the donated hours to be available for payout on the next paycheck.

Employees Win $500 for Good Attendance!

Congratulations to the following employees who won $500! Their name was drawn during the Workforce Open Forums from a pool of those employees who had a full sick bank and no disciplinary actions on December 31, 2016. This drawing was a way for Memorial Hospital to show appreciation to employees for good attendance.

Sean Kluemper, Clinical Engineering
Mike Fulkerson, Ambulance Services
Karri Meyer, Outpatient Center
Marcia Zehr, Huntingburg Urgent Care
Susan Oeding, Patient Financial Services

“Connections” Reminder:

The deadline for submitting information for Connections is one week prior to the edition date. Connections is published every other Friday – same date as pay days.
New Practice Manager

by Jill Kidwell, Director of Medical Practice Management

Please join me in welcoming Melanie Belcher as the new practice manager for Dale Family Medicine and Santa Claus Family Medicine. She comes to Memorial with several years of health care leadership experience. Over the course of the next couple of weeks, she will transition into her leadership role as Sheryl Cody will be transferring into a Patient Access Specialist role within MPM. Please take the opportunity to welcome Melanie.

We would also like to thank Sheryl Cody for leading Dale Family Medicine and Santa Claus Family Medicine.

SPOKE

LIGHTING OF THE NEW WALKWAY

The SPOKE Team has received several suggestions around the lighting and safety of the new walkway by the new parking lot/garage that was recently completed. Safety of our workforce is of utmost importance. Our Facility Services Department has thoroughly investigated the lighting and safety of the new walkway.

As with any new building project, there are specifications that must be followed and maintained. The requirements for lighting are outlined in the Recommended Average Maintained Illuminance Levels for Pedestrian Ways. The meter readings registered on our walkway are well above the recommended lighting level for safe travel.

Additionally, we also want to show respect to our neighbors by keeping our lighting at an acceptable brightness level.

Please be sure to utilize the handrails to help ensure your safety.

“Quality is not what happens when what you do matches your intentions. It is what happens when what you do matches your customers’ expectations.”

~ Guaspari
Have you and your partner decided to start a family? If so, you are about to embark on an exciting journey. Join Dr. Scott Beckman, Obstetrician / Gynecologist, to learn information on how to have a healthy pregnancy, reduce the risks of pregnancy complications, and fertility tracking. Dinner is included, and pre-registration is required.

**Planning Your Pregnancy**

**Preconception Preparation**

To pre-register, please call Memorial Hospital’s Marketing Department at 812-996-2352, or go online to www.mhhcc.org and click on “Classes and Events.” Deadline to register is **Wednesday, April 19.**

Retirement Celebration
For

Bunnie Bradley
Director Memorial Home Care

Tuesday, April 11, 2017

1:00 – 3:00 pm

Mary Potter Meeting Room

Stop by for refreshments and to wish Bunnie well as she embarks on many new adventures.

Retirement.

Did you know...

99% of retired people can’t believe they ever had the time to go to work*

Enjoy, you deserve it!

Hosted by the Division of Patient Services and Memorial Home Care

* Completely made up fact based loosely on real life
Blood Drive - Friday, April 21

Memorial Hospital is hosting an American Red Cross blood drive on **Friday, April 21** from 8:30 a.m. until 12:30 p.m. in the Conference Center of the Medical Arts Building. Appointments for specific donation times are encouraged. Appointments can be made by calling the Marketing Department at ext. 2333.

Anyone 17 years of age or older, weighs at least 110 lbs., has not donated in the past 56 days (112 days for double red blood cell donations), and is in good general health is urged to donate blood. Individuals who have questions concerning medical eligibility may call the American Red Cross at 1-800-RED CROSS.

Attempt to donate on the day of the drive, and you will be entered into a drawing for a free t-shirt!

---

**Did You Know?**

The fact that pencils have erasers is supposed to indicate that no one is perfect. But it’s doubtful that people were perfect before this month in 1858. That’s when Hyman Lipman was granted a patent for a pencil with an incorporated rubber eraser. Lipman’s eraser could be sharpened, as it protruded from the wood sheath at the end opposite the graphite. The familiar wood-encased pencil dates back to 1662, when they were mass-produced in Nuremberg, Germany. More than 350 years on, and despite all of our electronic marvels, more than 14 billion pencils are produced globally every year. U.S. annual production is around 2 billion, and annual sales of pencils and art supplies come to around $1.3 billion.

Helping Those In Need

Did you know that our Memorial Hospital Foundation has 56 different accounts or funds set up to accept monetary donations for various hospital departments and locations, all of which directly or indirectly help our patients and the communities we serve? There are also three scholarship/endowment funds. Each of these funds are ‘restricted’ meaning that certain criteria must be met in order for any money to be dispersed. In addition, 100% of the money donated to these funds is used by the fund. None is kept out for salaries or expenses of the Foundation.

To view a list of available funds currently set up, click here or search “Funding List” on the HUB.

To make donations to any of the funds, complete a donation form and send it to Memorial Hospital Foundation. Click here for a donation form or search “Memorial Hospital Foundation Donation Form” on the HUB.

If you have any questions regarding Restricted Funds and how these work or if you would like to set up a new fund, please contact Mike Jones, Executive Director of Memorial Hospital Foundation, at mjones@mhhcc.org or 812-996-8426.

Bake and Craft Sale

by Marilyn Shelton, Post-Surgical Services

Relay for Life Team #9 – Caring Hands of Memorial Hospital – will have a Bake and Craft Sale on Friday, April 7 beginning at 6:30 a.m. in the Main Lobby. The theme will be Easter. All profits will go to Relay for Life.
Managing your heart’s health can be confusing. Join Dr. William Lehmkuhler, Memorial Hospital Cardiologist, to learn how dietary supplements and lifestyle changes can affect your health and well-being. Dinner is included, and pre-registration is required.

Thursday, April 13, 2017
6:00 - 7:15 p.m. ET

The Villages at Oak Ridge Community Clubhouse
1694 Troy Road, Washington

To pre-register, please call Memorial Hospital’s Marketing Department at 812-996-2352, or go online to www.mhhcc.org and click on “Classes and Events.” Deadline to register is Thursday, April 6.
JOIN TEAM MHHCC!
by Darla Bush, Caring Hands Senior Services

I am reaching out on behalf of our Alzheimer’s Walk team for the 2017 year… woohooooo!!! We have had an AWESOME last three years which included earning the designation of number one team in Caregiving Fundraising! That is fabulous! I am looking to get our team going again. With that being said, I am in the search for a person who is very interested in helping with co-leading this team with me. So, I need someone with gung-ho-ness(??), creative ideas, positivity, and the ability to get the crowds going. It also can be a great project for someone looking for a SMART goal. So, please reach out to me via e-mail, or you can text me and let me know if you are interested in this position.

If the co-leader position is not for you, I am also in search of team members. If you would like to be on the team or if you have been on the team in the past and would like to continue on the team, let me know! Please send an e-mail to dbush@mhhcc.org so I can get you registered on the 2017 team. In the e-mail, please include the following information: name, address, phone, age, and e-mail address.

Thank you so much for your time, and I cannot wait to see what Team MHHCC can do this year!!!!!
Well Balance Workshop

With our busy lives filled with deadlines, meetings and family events, keeping a balance of healthy living can be difficult. Memorial Hospital and Health Care Center is offering a series of Well Balance Workshops that are designed to help individuals target problem areas for better overall wellness throughout the year.

In April, the topic will be “Work Life Balance” in which a trained wellness coach will focus on techniques such as developing organizational skills and setting boundaries in order to achieve balance in all areas of your life.

The “Work Life Balance” workshop will be held on Thursday, April 13 from 6:00 – 7:00 p.m. and at Memorial Southside Office, located at 1100 West 12th Avenue in Jasper. The cost is $5. Pre-registration is required.

For more information or to register for the class, please visit Memorial Hospital’s website at www.mhhcc.org and click on “Classes & Events,” or call the Health and Wellness department at 812-996-2399.
Peripheral Artery Disease (PAD) is the narrowing or blockage of the vessels that carry blood to your organs and limbs. PAD affects more than 8 million Americans, and nearly 20% of those affected will experience heart attack, stroke, or hospitalization.

The most common symptom of PAD is painful cramping in your hip, thigh, or calf muscles during activity. Risk factors include being over the age of 50 and having high blood pressure, diabetes, or high cholesterol, or being a smoker.

During a PAD screening, participants will have their blood pressure reading taken in the arms and ankles, and the results will be compared and interpreted by a physician. Educational material will be provided the day of the screening.

Abdominal aortic aneurysm (AAA) occurs when the large blood vessel that supplies blood to the abdomen, pelvis, and legs becomes abnormally large or balloons outward. An AAA can develop in anyone, but is most likely to occur in males over 60.

Aneurysms usually develop slowly over many years and often have no symptoms; however, the most common symptom of AAA is pain in the abdomen or lower back – severe, sudden, persistent, or constant. Risk factors include being over the age of 60, having a history of smoking, high blood pressure, high cholesterol, atherosclerosis, or a family history of aortic aneurysm.

If you have risk factors for stroke, a stroke screening is recommended. Major risk factors include high blood pressure, elevated cholesterol, heart disease, diabetes, smoking, peripheral arterial disease, atrial fibrillation, a family history of stroke, TIA's (transient ischemic attacks), carotid artery disease, or being over 55.

During the screening, blood pressure is measured and a monitor strip of the heart’s rhythm is obtained. Then, a quick ultrasound scan is done of the carotid arteries. This abbreviated study is reviewed by a physician who determines the presence or absence of plaque and evaluates the monitor strip to rule out atrial fibrillation. If plaque is found, your primary care physician may order a complete carotid duplex study to better quantify the amount and significance of it.

Limited AAA screenings only are available during the date below for $40.

A four-hour fast, including not smoking or chewing gum, is required prior to this screening.

Thursday, April 20, 2017
Wednesday May 10, 2017
8:00 a.m. – 3:45 p.m.
Memorial Hospital and Health Care Center (Level 6)
800 West 9th Street, Jasper
Cost of the screening is $90.

Pre-registration for the PAD/AAA/Stroke Combination Screening is required. To register or for more information, please contact Memorial Hospital’s Phillip R. Dawkins Heart & Vascular Center at 812-996-0553. A brief medical history will be collected to determine eligibility for the screening.
